FOR : TRANSPARENT ELECTRODES
GROUP ART UNIT : 2879
EXAMINER : Harper, Holly R.

ASSISTANT COMMISSIONER OF PATENTS
Washington, DC 20231

INTERVIEW SUMMARY

S I R:

Prior to the expiration of a 1-month period from the date of a June 7, 2004 interview between the examiner and the Applicants' representative, the Applicants submit the following remarks.

REMARKS

The Applicants thank the examiner for the courtesy extended during an in person interview on June 7, 2004, and in a follow-up phone call on July 1, 2004.

At the interview, the following was discussed:

- (A) No exhibit was shown.
- (B) Claim 1 was discussed.
- (C) The following references were discussed:

Wakimoto US 5,739,635

Guha US 5,739,545

Raychaudhuri et al, "Fabrication of Lithium-Based Alloy Cathodes for Organic Light Emitting Diodes by D C Magnetron Sputtering," SID 01 Digest 526-529.

- (D) No amendment was discussed.
- (E) Applicants argued that there is no motivation to combine the three references identified above to reject claim 1.
- (F) The examiner agreed to reconsider and possibly withdraw the current rejection. The examiner reserved the right to conduct a further search and make additional rejections.
- (G) The examiner agreed to issue a new office action, either allowing the case or making a new rejection. In a phone call on July 1, 2004, Applicants' representative confirmed this point, and that the new office action would reset Applicants' time for response.
- (H) There was no e-mail correspondence.

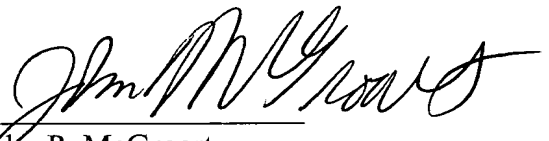

CONCLUSION

In view of the remarks herein, reconsideration and withdrawal of all pending rejections is respectfully requested. The Office is authorized to charge any additional fees or credit any overpayments under 37 C.F.R. § 1.16 or 1.17 to Deposit Account No. 11-0600.

Respectfully submitted,

Dated: July 6, 2004
